**AN ACT TO PROVIDE FOR THE PUBLICATION OF A ROSTER OR BLUE BOOK SHOWING THE OFFICERS AND EMPLOYEES, AND THEIR COMPENSATION, IN EACH DEPARTMENT OF THE STATE GOVERNMENT.**

*The General Assembly of North Carolina do enact:*

SECTION 1. That it is hereby made the duty of the Legislative Reference Librarian, heretofore appointed under and by virtue of chapter 202 of the Public Laws of North Carolina, session of 1915, to immediately prepare a roster or "Blue Book" which shall show in detail the number of officers and employees in each department of the State Government, including the National Guard, Department of Agriculture, educational, penal, charitable institutions, and any other department controlled or supported wholly or in part by the State, together with the compensation paid to each of said officers or employees. And if any person shall be an employee of more than one department of the State Government, or any institution controlled or supported wholly or in part by it, the salary or compensation received by such person shall be set out in each department where he is employed, and reference made in that department to the other department from which he shall receive a salary or other compensation.

SECTION 2. That the said roster or "Blue Book" shall be completed on or before the first day of January, one thousand nine hundred and eighteen, and printed within two (2) months thereafter.

SECTION 3. That one copy of said roster or "Blue Book" shall be furnished to the clerk of the Superior Court of each county in the State; one copy furnished to each member of the General Assembly of 1917; one copy furnished to each member of the General Assembly of 1919 as soon after the election of 1918 as the result thereof shall be ascertained; and one copy furnished to each member of the Constitutional Convention as soon as the result of the election for that purpose shall have been ascertained. That other copies of said roster or "Blue Book" shall be sold to the public at such price as shall be fixed by the said Legislative Reference Librarian, and as near the cost of publishing the same as can be reasonably ascertained.

SECTION 4. That it shall be the duty of the said Legislative Reference Librarian to collate and print under appropriate headings, and with appropriate arrangement, the annual amount and purpose of every appropriation payable out of the State Treasury, whether by special or general law.

SECTION 5. That the said Legislative Reference Librarian, being a salaried officer, shall receive no further or extra compensation for his services in preparing and publishing said roster or "Blue Book."

SECTION 6. That this act shall not be construed to require the publication of the names of pensioners, nor of school teachers or officers not employed directly by the State Department of Education or the Superintendent of Public Instruction; but the amount of such money paid out of the State Treasury to the various counties of the State for pensions or educational purposes shall be set forth in said roster or "Blue Book" by counties; nor shall this act apply to the officers or employees of the North Carolina Agricultural Society, nor local agricultural or fair societies, nor to the orphan societies to the support of which the State contributes; but all institutions or departments of the State Government shall be considered

to be embraced in this act which receive any appropriation from the State Treasury, general or special, except those above excepted.

SECTION 7. That in giving the names of the officers and employees of the various asylums, educational, charitable, and other institutions, and their compensation, wherever there are a number of employees receiving the same compensation, the names of such employees may be grouped, with a statement that they receive the same compensation.

SECTION 8. That in compiling the said roster or "Blue Book" the said Legislative Reference Librarian shall make groups of each department of the State Government, Department of Agriculture, National Guard, institutions, and all bureaus thereunder, and all other departments by whatsoever name called, which are maintained or aided by the State, and shall set the same forth under appropriate headings, so that the details of each department will be of easy access to any person consulting said book.

SECTION 8a. That the said roster or "Blue Book" shall contain in separate groups, sections, or divisions a statement showing the bonded indebtedness of each and every of the counties, cities and towns of the State, the date of maturity and rate of maturity and rate of interest of such bonds, and for what purposes issued.

SECTION 9. That the cost of printing said roster or "Blue Book" shall be paid by the State Treasurer upon the order of the Governor, who shall issue a requisition to the State Auditor for the cost of publishing the same, which requisition shall be approved by the State Auditor and paid by the State Treasurer out of any funds in the State Treasury not otherwise appropriated.

SECTION 10. It is hereby made the duty of every person who shall be the official head of any department of the State Government and of every person who shall be the official head of any State institution of any character (for which the State makes an appropriation) to furnish to the Librarian of the Legislative Reference Library a complete list of all officers and employees of each department or institution, with a succinct statement of their duties and compensation. The Auditor and Treasurer are directed to furnish, on request of the Librarian, all such information from their offices and records as he may request.

SECTION 11. Five thousand copies of the said "Blue Book" shall be printed; and if the Governor shall be of the opinion that more should be printed, he is authorized to direct the publication of such additional number as he may think proper.

SECTION 12. The said Librarian shall also prepare and publish in said "Blue Book" the sources of the State's revenue and the amount thereof, the State's indebtedness and the amount thereof, and the State's investment in stocks, bonds, etc., the value of same and the approximate annual income thereon.

SECTION 13. That this act shall be in force from and after its ratification.

Ratified this the 5th day of March, A. D. 1917.

Public Laws 1917, c. 145.

To His Excellency, THOMAS W. BICKETT,  
*Governor of North Carolina.*

SIR:—In compliance with Chapter 145 of the Public Laws of 1917, entitled "An act to provide for the publication of a Roster or Blue Book showing the officers and employees, and their compensation, in each department of the State Government," I am transmitting herewith the NORTH CAROLINA BLUE BOOK for publication.

Acting upon the advice of the Attorney-General, the data herein contained has been collected for the fiscal year ending during the calendar year 1917 for the several departments and institutions. The need for a uniform fiscal year for all departments of the State Government is emphasized in this publication. Fiscal years herein given vary from April 1 to November 30, 1917.

Work was begun on getting together this material on December 1, 1917, when a letter setting out the character of the information wanted and a copy of the law above referred to were sent to each department of the State Government, all State institutions, the registers of deeds of the one hundred counties, and the mayors of more than four hundred cities and towns.

About 40 per cent of the officials to whom these letters were sent supplied the required information within a reasonable time. Additional requests were sent from time to time to delinquent officials.

In many instances the information supplied was incomplete and inaccurate, which necessitated a tremendous volume of correspondence and consequent delay. In some instances an audit was necessary before the facts could be ascertained.

Heretofore no publication of this character has been authorized or directed, and since there is no penalty in the act to enforce its requirements of the officials whose duty it is made to supply the data herein given, it has been a most difficult task to induce many of them to comply with the law. In most instances, however, they have shown a desire to give the information required and in the form requested.

By reason of the fact that it has been necessary to secure this data from some six hundred different sources it cannot reasonably be hoped that some inaccuracies and errors have not crept in, but they have been checked and eliminated as far as it has been possible to do so.

There is a lack of uniformity in the data supplied which is to be regretted. Should the General Assembly provide for similar future publications many improvements in this respect will suggest themselves to the compiler.

It is hoped that this volume will supply information which will be of value to the members of the General Assembly and the public.

Respectfully submitted,

W. S. WILSON,  
*Legislative Reference Librarian.*

### DUTIES OF OFFICERS AND EMPLOYEES

#### *First.*

The duties of the Fisheries Commission Board are set forth in acts of General Assembly of North Carolina, Session of 1915, chapter 84, as amended by chapter 290, Acts of 1917. It is given jurisdiction over and control of all the fisheries of the State, which is construed by said act, section 24, to include porpoises and other marine mammals, fishes, mollusca, and crustaceans, and all operations involved in using, setting or operating apparatus employed in killing or taking the said animals or in transporting and preparing them for market.

The Fisheries Commission Board also has authority and power to regulate, prohibit, or restrict, in time, place, character, and dimensions, the use of nets, appliances, apparatus, or means employed in taking or killing fish; to regulate the seasons at which the various species of fish may be taken in the several waters of the State and to prescribe the minimum size of fish which may be taken in the several waters of the State.

The board also has general supervision of the acts of the officers appointed by it and their substitutes employed in the fishing industry of the State. The Fisheries Commission appoints a Fisheries Commissioner who is responsible to the board for the carrying out of the duties of his office as prescribed by the Acts of 1915, chapter 84.

#### *Second. COMMISSIONER'S DUTIES.*

The Commissioner has authority to name and appoint two assistants to be approved by the board. He is responsible to the board for his acts in a lawful manner to carry out and enforce all the laws, rules, and regulations of the board pertaining to the fishing industry of the State; to see that all license and other taxes are collected and paid to the Treasurer.

#### *Third.*

The assistants' duties are to help the Commissioner in his duties. They are appointed by the Commissioner and commissioned by the board. The assistants' duties are prescribed by the Commissioner, and they may be removed by him for cause, and may be relieved by the Commissioner and the board at any time when in their opinion their retention is not necessary in the interest of the industry.

*Fourth. INSPECTORS' DUTIES.*

It is the duty of the inspectors to observe and carry out all laws of the fishing industry, and the rules and regulations of the board relative thereto under the direction of the Commissioner. In many places there is little to do; in others there is much. Some have to give all their time; in other places there is but little to do. These inspectors are paid in accordance with the services necessary to perform the duties, the time, work, etc., considered.

The State owns four boats, and in July, 1917, the Fisheries Board, through its Commissioner, made contract with the Navy Department to use said boats, the Navy Department agreeing to enlist and pay the crews of said boats and certain other expenses. These boats and crews were to do certain work for the United States Government, and at the same time do required work for the State in the fishing industry, and except in case of extreme emergency they are to operate under the orders and direction of the Fisheries Commissioner. This was an opportunity for the State to perform a patriotic duty to the Government and at the same time carry out the work of the fishing industry practically without any interruption.

The engineers' and seamen's duties are to operate the boats under the direction of the commander of the boats, who receives his orders from the commissioner. These enlisted men were selected and tendered for enlistment by the Commissioner from time to time as suitable men for various positions could be found. Hence the reason all were not enrolled at the same time.

Appropriation, \$10,000 annually. 1917, c. 193.

# AUDUBON SOCIETY OF NORTH CAROLINA

(FOR YEAR ENDING NOVEMBER 30, 1917)

It shall prescribe the form of license for nonresident hunters to be issued by the clerks of the Superior Court upon the payment of the fees prescribed in the act. These fees are paid by the clerks of the court to the Treasurer of the State for the purpose of enforcing the provisions of the law.

The Governor, upon recommendation of the Audubon Society, shall, from time to time, appoint bird and game wardens and a treasurer of the society. Revisal of 1905, c. 40.
